2.2	Microsoft Visual Studio Code	5
2.2.1	Installation	5
2.3	Microsoft .NET Core C#	5
II	Decision Making	7
III	Human Capitals	9

Part I

Operations

Chapter 1

Virtualization

Chapter 2

Environments Setup

We use Linux (Debian-Ubuntu) as our stack

2.1 First hands on Linux

```
sudo apt update  
sudo apt upgrade
```

2.2 Microsoft Visual Studio Code

2.2.1 Installation

Offline installation

Download installer To install Microsoft Visual Studio Code (AKA vscode) please navigate to it's [download page](#).

Install .deb file

```
sudo dpkg -i package\_name.deb
```

2.3 Microsoft .NET Core C#

```
sudo apt install -y dotnet-sdk-7.0
```

Part II

Decision Making

Part III

Human Capitals
